Instructor Comments

Describe the one best thing about the lab section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- Really cared about the students and made sure that everyone understood the concepts that he was explaining. No complaints at all!
- My lab instructor was amazing, he was always available to help and really wanted us all to do our best and learn.
- One thing that was really helpful was the breakout rooms. I really have no criticisms. Jonathan is great! Keep up the great work.
- Good with going over the lesson.
- Coding is hard, but the collaborating in the breakout rooms makes things less scary.
- Jonathan was great at explaining the problems he would assign in R as well as going over topics we covered in class.
- He described in detail of what we could not understand from our professor.

N/A

- He was very insightful and always gave clear answers to all my questions.
- Accessible, goes through materials step-by-step
- Thank you professor!
- He was great!!
- My lab instructor was the best at teaching R. He's really good
- He stayed very on topic, made sure to help us understand the material, and would even stay past class time to assist us in technical difficulties. There is not much at all to be improved. He was an amazing instructor.
- The lab section of this course was great! We used this time to learn R and Jonathan was super helpful and got to every student's question. He taught in ways that made sense to everyone unlike the professor who taught the other sections.
