## Instructor Comments

**Describe the one best thing about the lab section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?**

- Keep it up as is!
- The recitation helped me understand how to solve problems from the material taught in lecture. I would like to see more complex problems in recitation because I feel that the exam problems were more difficult than the homework and recitation problems.
- actually knew information and showed us the mechanics of statistics.
- Very well prepared for recitation, made the steps for solving problems very clear
- I liked the detailed explanations of questions in STAT recitation.
- Very willing to go back and explain any question that students may have had. I learned from him more than the professor. Great teacher
- We did not properly go over homework questions
- Jonathan did a great job teaching us the material, his clarifications in the recitations were considered to be the actual lectures
