## **Instructor Comments**

Describe the one best thing about the lab section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- I learned more from the recitations than in class. Going over actual problems that are similarly worded to the exams helped. He was straightforward and got to the point.
- there is only one TA who really help do the work. Other TA do not know anything even the exam time.
